# *Attention V. Prep – WA Families*

*November monthly progress reports (MPR) are on the way. These reports create an excellent opportunity to sit down with your child(ren), celebrate their successes, and develop plans for improvement.*

*These reports are designed to show the progress your children are making in their classes. If unsatisfactory progress is determined, we will create an intervention plan to help your child see success.*

*Should you have any questions regarding the progress your child is making, please get in touch with their teacher(s) directly. Our Success Coaches are also a valuable resource to assist your family in finding success online.*

*Practice the Pause.*

*Self-regulation is a powerful tool that we can all improve upon.*

*Practice pausing whenever you are about to judge, assume, or accuse.*

*Pause whenever you are about to react harshly, and you will avoid doing and saying things you will later regret. Practice the Pause.*
